Professional Summary

My knowledge in JavaScript, React, and responsive design, honed at ALX Training, has driven successful project completions. I excel in agile environments, demonstrating strong multitasking abilities and a commitment to excellence. Adaptable and resourceful, with a passion for creating innovative web solutions. Proficient in modern front-end and back-end technologies, including HTML/CSS and JavaScript for front-end, and Node.js and MongoDB for back-end. Capable of delivering high-quality, user-centered applications that drive business success.

Technical Skills

Languages: Javascript(ES+6), Python, C, Shell, Bash

Frameworks/Libraries: React.js,next.js,node.js,Redux,Zustand,TailwindCSS, Bootstrap

Database: MongoDB, MySQL, NoSQL

Tools and Technologies: Git, HTML5, CSS3

Soft Skills

- Agile
- Problem-solving
- Multitasking abilities

Work Experience

News Reader App | *JavaScript, React, Vite*

November 2024 – January 2025

- Built a dynamic news reader application that aggregates and displays news articles from various sources using public news APIs.
- Integrated a public News API to fetch and display the latest articles categorized by topics such as technology, sports, and business.
- Designed a responsive and user-friendly interface for optimal viewing across devices.
- Optimized API calls and caching mechanisms to improve performance and reduce loading times.
- Deployment: Successfully deployed on Vercel.

GitHub User Search App | *JavaScript, React, Node.js, GitHub API.*

October 2024 – November 2024

- Designed and developed a web application that allows users to search for GitHub profiles
- view user-specific data (e.g., repositories, followers, and activity) using the GitHub API.

Testing Engineer | *U-Test*

June 2024 – June 2024

- Improved software quality by conducting comprehensive testing, including functional, performance, and regression tests.
- Established robust test environments that accurately mirrored production systems for accurate results and reliable performance assessments.
- Constructed test environments and designed and executed test plans.
- Obtained components, supplies, and equipment to support testing.

Web Development Intern | React, JS, Python, Django, TailwindCSS, node.js

February 2024 – March 2024

- Developed a weather app that provides real-time weather data and forecasts using public APIs, focusing on usability and responsiveness across devices.
- Built a Tic-Tac-Toe game app with a user-friendly interface, implementing game logic and responsiveness for a smooth experience.
- Created a Todo List app that allows users to add, edit, and delete tasks, with a focus on intuitive design and local storage functionality.
- Designed and developed a personal portfolio website that showcases technical skills and projects, focusing on modern web design practices and responsiveness.

Education

Albukhary International University – Malaysia	Dec 2023 – Present
Computer Science (Honors)	
ALX Holberton School – Nigeria	Aug 2024 - Jan 2025
Front-End Web Development	

Language

- English: Fluent
- Afan Oromo: Native
- Amharic: Fluent
- Bahasa-Malayu: Beginner

Hobbies & Interests

I enjoy hiking for fresh air and scenic views. Video games allow me to explore limitless worlds from my couch.
