## Professional Summary

My expertise in JavaScript, React, and responsive design, honed at ALX Training, has driven successful project completions. I excel in agile environments, demonstrating strong multitasking abilities and a commitment to excellence. Adaptable and resourceful with a passion for creating innovative web solutions.

Proficient in modern front-end and back-end technologies, including HTML/CSS and JavaScript for front-end, and Node.js and MongoDB for back-end. Capable of delivering high-quality, user-centered applications that drive business success.

## Skills

- JavaScript and jQuery
  - Version control and Git
  - Front-end web development
  - RESTful APIs
  - Responsive design
  - React and Next.js
  - Problem-solving
  - Proficiency in Python and C
  - Agile methodologies
  - Experience with Node.js
  - Familiarity with Django
  - Multitasking abilities
- 

## Work Experience

### Inventory Management system

#### Albukhary International University-School Project(Malaysia)

Nov 2024- Jan 2025

- Developed an **Inventory Management System** using **C language** to streamline inventory tracking and management for the university's resources.
- Designed and implemented key features such as:
  - **Product Registration:** Allowed for adding, updating, and deleting inventory items with detailed attributes like quantity, price, and categories.
  - **Efficient Search:** Created search functionality based on product names, IDs, and categories to improve accessibility.
- Utilized **file handling** and **data validation** techniques to ensure accuracy and prevent data discrepancies,

optimizing the system's reliability.

## News Reader App

**ALX Training** – Remote (Addis Ababa)

*November 2024 – January 2025*

- Built a dynamic news reader application that aggregates and displays news articles from various sources using public news APIs.
- Designed a responsive and user-friendly interface for optimal viewing across devices.
- Implemented search and filter functionality for articles based on keywords or categories.
- Technologies: HTML, CSS, JavaScript, React, News API, Tailwind CSS, Material UI.
- **Deployment:** Successfully deployed on Vercel.

## GitHub User Search App

**ALX Training** – Remote (Addis Ababa)

*October 2024 – November 2024*

- Developed a web application that allows users to search for GitHub profiles and view user-specific data (e.g., repositories, followers, and activity) using the GitHub API.
- Integrated the GitHub API to fetch and display user data.
- Technologies: JavaScript, React, Node.js, Tailwind CSS.

## Testing Engineer

**U-Test** – Remote (Malaysia)

*June 2024 – June 2024*

- Conducted comprehensive testing, including functional, performance, and regression tests.
- Established robust test environments to mirror production systems.
- Designed and executed test plans to ensure software reliability.

## Web Development Intern

**Pirodgy Infotech** – Remote (India)

*February 2024 – March 2024*

- Participated in code reviews, ensuring adherence to best practices and high-quality standards.
  - Conducted thorough testing on various devices and browsers, guaranteeing optimal performance across platforms.
  - Enhanced user experience by developing responsive website layouts and implementing cross-browser compatibility.
-

## Education

### Bachelor of Science in Computer Science (Honors)

#### Albukhary International University – Malaysia

*Expected November 2027*

- Yayasan, 2024 from Albukhary Foundation
- IsDB, 2024 from Islamic Development Bank

### GED

#### ALX Holberton School – Lagos, Nigeria

*January 2025*

- Professional Development Studies: Front-End, 2024/25
  - Professional Development Studies: Foundation Study, 2024
  - Completed coursework: HTML, CSS, JavaScript, React, TailwindCSS, 2024
- 

## Hobbies & Interests

- Hiking for the fresh air and scenic views.
- Exploring limitless worlds through video games.
